

Cold Case File # 6-14-1777

Cold Case File
6-14-1777

What do the North Pole, Mt. Everest and the moon have in common? What do they have to do with the seamstress pictured on the left? What does this woman have in common with a man named Francis Hopkinson? Why was her (or his) "glorious" work so important to our country in 1777? How has this item changed throughout history and how do we honor it?
