Idaho children will receive free school meals this school year.

(Boise) – The U.S. Department of Agriculture is offering free meals to all children in eligible schools running USDA meal programs for the 2021-22 school year.

During the school year 2021-22, all Idaho schools running USDA school meal programs are eligible to operate the Seamless Summer Option (SSO) providing free meals to all children in eligible schools. All Mountain View School District #244 sites will operate the SSO as “closed enrolled sites”, which means free meals are available only to enrolled children. No application is required.

This institution is an equal opportunity provider.
